Conference registrations continue to come in through our on-line registration process. Currently, we have attendees from 30 states registered to participate in this year's conference. Forty-seven percent of our attendees represent the public sector, including 18 state energy office or ESC State Chapters, seven Department of Energy/National Laboratories, and several non-profits. Minnesota leads the way with 22 public sector attendees, followed by Nevada with five and Kentucky with three. Twenty-four percent of our attendees to date represent the Energy Service Company sector -- and the rest from financial, manufacturing, supply-chain and utility sectors.

Time is running out to get in on the action.

Registrations are still being accepted through our the [conference website](http://conference.energyservicescoalition.org).
