

May 2019 eProject Builder Webinar Training Schedule

Let ESC walk you through why and how ePB can work for you!!!

The ESC hosts regular eProject Builder (“ePB”) webinars to introduce ESCOs, their customers, and other interested parties to ePB and provide a forum to ask questions. All webinars cover the benefits of using ePB, project workflow, a walk through of the data template, and a demonstration.

The ESC also provides customized training tailored for your organization or state. [Contact us](#) for more details. Whether you have one project or an entire portfolio, having the data forever and knowing where to find it is invaluable.

What You May Know

- You've heard about eProject Builder
- You may have attended a training webinar
- You may know it as a FEMP tool (but it's really more)

What you may NOT know

- Revisions and updates have created broad flexibility
- ePB is a free, secure way for you to track the work of your state or agency
- ePB can be as simple as you want it to be
- Free customized training for groups or teams is available ([contact us](#))
- Free training webinars are offered twice a month by the ESC

UPCOMING TRAINING WEBINARS

- Thursday, May 9th, 1:00 PM - 2:30 PM EDT | [Register here](#)
- Tuesday, May 28th, 1:00 PM - 2:30 PM EDT | [Register here](#)

Just another way that the Energy Services Coalition continues to support the broad uptake and use of Guaranteed Energy Savings Performance Contracting with resources, tools, training and assistance. As always, see our [website](#) for our library of support information.
